

FIX FOR EXIT WORKFLOW NOT WORKING

1. If you need to exit a client, go to **PROGRAM ENROLLMENT**.

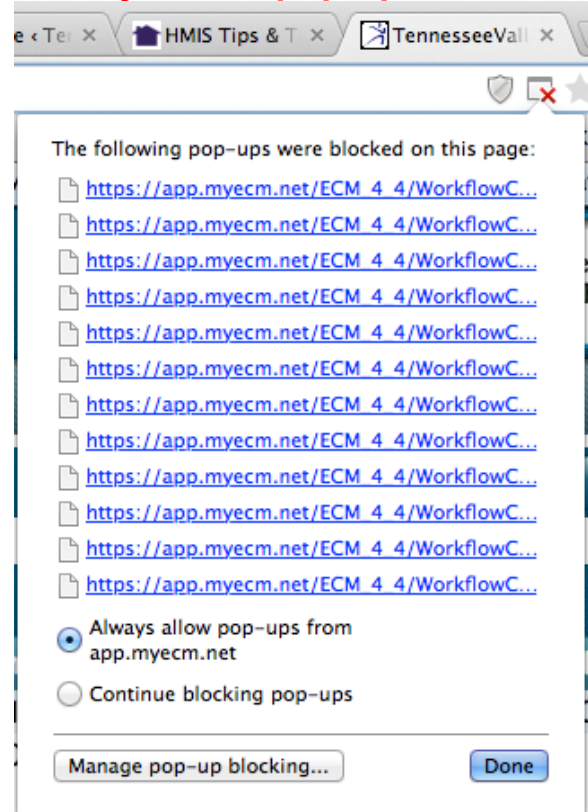

2. Then click on the **ENROLLED** text, then select **COMPLETE EXIT ENROLLMENT**.

3. The popup may be blocked. Look at your address bar for a **RED X**.

4. Click on this and then select **“Always allow pop-ups from...”**

5. Afterwards, go back and click the **COMPLETE EXIT ASSESSMENT** again.
