

## 2017 HOUSING INVENTORY CHART

### For PROVIDING SHELTER on Jan 24, 2017 (PIT)

(Shelters, Churches, Have Bed Inventory)

1. **CoCs will be required to enter the address for all projects, except for Victim Service Provider projects.** If a project uses a scattered site model the CoC will indicate that to HUD and not have to enter an address for the project.
2. CoCs with overflow beds should report the total number of overflow beds that were available for occupancy on the night of the inventory count. If there is no fixed number of overflow beds, CoCs may instead report the number of overflow beds that were occupied on the night of the inventory count.
3.  Beds in institutional settings not specifically dedicated for persons who are homeless such as detox facilities, emergency rooms, jails, and acute crisis or treatment centers should not be included in the HIC. HUD considers extreme weather shelters as dedicated homeless inventory and should be included in the HIC. While there might be occasional instances where a project with dedicated beds serves a non-homeless person, beds in these types of projects could still be counted as dedicated beds.

**SERVICES:** Please list services that you provide to homeless individuals.

**(HMIS) HOMELESS MANAGEMENT INFORMATION SYSTEM**

Our funding applications for the 12 county area are based on HMIS utilization rates. Reports that go to Congress such as the AHAR (Annual Homeless Assessment Report) only view data that has been entered into HMIS. Our data reported to Congress directly results in funding for our region to help reduce and alleviate homelessness.

**May we contact you to discuss future participation with your agency into HMIS?**

- Yes, I would like to hear more from Tennessee Valley Coalition for the Homeless (TVCH) about participating in HMIS in 2017.

**VERIFICATION AND AUTHORIZATION**

By signing this document you herein verify that the above information is correct and can be entered into the Homeless Management Information System (HMIS) by the Tennessee Valley Coalition for the Homeless on behalf of the Tennessee Valley Continuum of Care, to be used in the Annual Homeless Assessment Report (AHAR) and the Housing Inventory Count (HIC) for 2017.
