## PIT Methodology

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	34%
Provider-Level Surveys	32%
Client-Level Surveys	34%
Observation	0%
Other	0%
<b>Total</b>	<b>100%</b>

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some?

<input checked="" type="checkbox"/>	Complete Census Count
<input type="checkbox"/>	Random Sample and Extrapolation
<input type="checkbox"/>	Non-Random Sample and Extrapolation

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population? (Check all that apply)

<input checked="" type="checkbox"/>	Comparison of personally identifying information(PII), such as name, date of birth, and Social Security Number
<input checked="" type="checkbox"/>	Comparison of unique client identifiers (not PII)
<input checked="" type="checkbox"/>	Blitz count of persons in shelters (i.e. count occurred at the same time to avoid double counting)
<input checked="" type="checkbox"/>	Interview/survey questions(s) with screening questions (e.g. have you already completed a count survey)
<input type="checkbox"/>	No specific approach was used
<input type="checkbox"/>	Other (please specify):

4. Looking at the change in your sheltered count from last year's count, please choose the three reasons you believe best explains these changes from the drop-down list below

<input checked="" type="checkbox"/>	Change in PIT count methodology
<input checked="" type="checkbox"/>	Change in PIT participation of programs serving general homeless populations (e.g., singles, families)
<input checked="" type="checkbox"/>	Change in PIT participation of programs serving subpopulations (e.g., veterans, youth)
<input checked="" type="checkbox"/>	Change in PIT count training
<input checked="" type="checkbox"/>	Change in number of volunteers for PIT count
<input checked="" type="checkbox"/>	Change in awareness of PIT count and relevant resources
<input type="checkbox"/>	Change in CoC geographic coverage area

## 2024 Point-in-Time Count TN-512 Morristown/Blount, Sevier, Campbell, Cocke Counties CoC

<input checked="" type="checkbox"/>	Change in emergency shelter capacity
<input checked="" type="checkbox"/>	Change in transitional housing capacity
<input type="checkbox"/>	Change in rapid re-housing capacity
<input type="checkbox"/>	Change in homeless prevention capacity
<input type="checkbox"/>	Change in permanent supportive housing capacity
<input type="checkbox"/>	Change in other supportive housing subsidy capacity
<input type="checkbox"/>	Change in landlord partnership
<input type="checkbox"/>	Impact of coordinated entry
<input type="checkbox"/>	Impact of Housing First practices
<input checked="" type="checkbox"/>	Change in availability of affordable housing
<input checked="" type="checkbox"/>	Change in economic conditions (employment rate, etc.)
<input checked="" type="checkbox"/>	Change in weather-related conditions
<input type="checkbox"/>	Change in capacity due to COVID-19
<input type="checkbox"/>	Change in participation of programs due to COVID-19
<input type="checkbox"/>	Other (specify)

Please provide a summary description of the selected factors and how they impacted PIT count implementation (3,000 character limit):

The lack of affordable housing and the increase in inflation rates on basic needs have driven the number of those experiencing homelessness higher and higher in our region. Because of this and the recent extreme cold weather, we had an outpour of folks interested in helping during the count. Our developed partnership over the year also allowed us to lean on our new partners for our volunteer needs. With more volunteers and social services-based experiences, PIT training from years past was improved with more in-depth best practices and the increased number of trainings offered. To entice more agencies to enter HMIS throughout the year, we implemented HMIS for Sheltered Client level data for both our PIT & HIC. Over the year, we grew our partnership base to include more VSP and Transitional Housing organizations that ultimately participated in the PIT & HIC.

5. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count? (select all that apply)

<input checked="" type="checkbox"/>	"Night of the count" - census
<input checked="" type="checkbox"/>	"Night of the count" - known locations only
<input type="checkbox"/>	"Night of the count" - random or stratified random sample
<input checked="" type="checkbox"/>	Service-based count
<input checked="" type="checkbox"/>	Administrative Data

5a1. Did you cover the entire geography of your CoC during the night of the count?

<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No

# 2024 Point-in-Time Count TN-512 Morristown/Blount, Sevier, Campbell, Cocke Counties CoC

## 5b.1 How did the CoC select the areas that were included for canvassing?

<input checked="" type="checkbox"/>	An effort was made to use local knowledge (such as outreach workers and other local expertise) to target known locations (e.g., areas with known concentrations of people experiencing unsheltered homelessness)
<input checked="" type="checkbox"/>	Data from prior PIT counts
<input type="checkbox"/>	Other (please specify):

## 5d1. Where did you conduct the service-based count?

<input checked="" type="checkbox"/>	All homeless service providers in the CoC
<input type="checkbox"/>	Only service providers within the sample area
<input type="checkbox"/>	Only service providers serving specific subpopulations (e.g. homeless youth)
<input type="checkbox"/>	A single service provider
<input type="checkbox"/>	Other (please specify):

## 5d2. For how many days after the PIT date did you conduct a service-based count?

<input type="checkbox"/>	Day after the count only	<input type="checkbox"/>
<input type="checkbox"/>	Within 3 days after the count	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Within 7 days after the count	<input type="checkbox"/>
<input type="checkbox"/>	Other (please specify):	<input type="checkbox"/>

## 5e1. What administrative data did you use for your unsheltered count?

<input checked="" type="checkbox"/>	HMIS
<input checked="" type="checkbox"/>	CES data
<input checked="" type="checkbox"/>	A "By-Name-List"
<input checked="" type="checkbox"/>	Street Outreach
<input type="checkbox"/>	Other (please specify):

## 6. Were certain areas within the CoC geography specifically excluded because the CoC had reason to believe there were no unsheltered people in those areas based on prior knowledge/experience?

<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No
<input type="checkbox"/>	Other (please specify):

## 7. Did the CoC adjust the information in some way (e.g., statistical adjustment or extrapolation) to account for areas within the CoC geography that were not canvassed but where unsheltered people might have been on the night of the PIT count?

<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No

# 2024 Point-in-Time Count TN-512 Morristown/Blount, Sevier, Campbell, Cocke Counties CoC

8. Were certain areas within the CoC geography specifically excluded because of concerns related

<input checked="" type="checkbox"/>	Yes
<input type="checkbox"/>	No

9. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

<input checked="" type="checkbox"/>	Comparison of personally identifying information(PII), such as name, date of birth, and Social Security Number
<input checked="" type="checkbox"/>	Comparison of unique client identifiers (not PII)
<input checked="" type="checkbox"/>	Blitz count of persons in shelters (i.e. count occurred at the same time to avoid double counting)
<input checked="" type="checkbox"/>	Interview/survey questions(s) with screening questions (e.g. have you already completed a count survey)
<input type="checkbox"/>	No specific approach was used
<input type="checkbox"/>	Other (specify)

10. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explain these changes from the drop down list below. Please also provide a brief description of these specific factors (3,000 character limit).

<input checked="" type="checkbox"/>	Change in basic PIT count approach (e.g. switched from census to sample, the addition or removal of an observation element or service-based sites/events, a change in sampling method such as the addition of extrapolation element, or a change in the use of HMIS or other datasets)
-------------------------------------	--

Please provide a brief description of these specific factors and how these changes affected PIT count implementation (3,000 character limit):

We implemented the use of HMIS data for folks who were sheltered the night of the PIT, freeing up case managers to do more street canvassing.
---

<input checked="" type="checkbox"/>	Change in implementing the PIT count (Select all that apply)
<input type="checkbox"/>	Change in method to account for undercount (e.g., service-based enumerations, decoys)
<input checked="" type="checkbox"/>	Change in PIT count training (e.g., more/less training options or online training)
<input checked="" type="checkbox"/>	Change in volunteers for PIT count (e.g., increase or decrease in volunteers overall, increase or decrease in volunteers with prior experience, included volunteers from law enforcement in implementation but did not in prior year.
<input type="checkbox"/>	Counted in fewer or more areas of jurisdiction
<input type="checkbox"/>	Change due to the composition of a CoC (e.g., CoC splitting or merging or adding/removing geography to a CoC)

Please provide a brief description of these specific factors and how these changes affected PIT count implementation (3,000 character limit):

## 2024 Point-in-Time Count TN-512 Morristown/Blount, Sevier, Campbell, Cocke Counties CoC

We added new and more training opportunities for the PIT Volunteers. Over the year leading up to the count, we partnered with agencies and organizations to increase our volunteer number by 100%. With the increased number of volunteers, we could canvass our region more.

<b>X</b>	Change in capacity (e.g., increase or decrease in beds/units available, more or less funding available for project type, more staff in prevention programs, fewer beds available due to COVID-19 social distancing protocols)
----------	---

**Please provide a brief description of these specific factors and how these changes affected PIT count implementation (3,000 character limit):**

We partnered with more DV shelters for this year's count.

	Change due to policy implementation (e.g., implemented new coordinated entry system, increased oversight of Housing First practices, established partnerships with multiple new landlords)
	Change due to natural factors (Select all that apply)
	Other (specify):

**Please provide a summary description of the selected factors and how they impacted PIT count implementation (3,000 character limit):**

This year, we used data from HMIS to conduct the Shelter survey count and compile a list of known locations for the volunteers and case managers to check during the count. We partnered with more agencies that provide nonhousing direct services to people experiencing homelessness but have a vested interest in our work. They were able to help lead the count in smaller areas to ensure all available locations were covered during the count. With the increased number of participants, more PIT training was provided than in previous years.
